**DETAILED ACTION**

1. This communication is in response to the application filed 22 July 2002. Claims 1-30 are pending.

***Election/Restrictions***

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-6, 13-16, 21-24, 29-30, drawn to a medical information system, classified in class 705, subclass 2.
  - II. Claims 7-8, 17-18, 25-26, drawn to transferring prescription medicine information, classified in class 705, subclass 3.
  - III. Claims 9-12, 19-20, 27-28, drawn to the transfer of adverse and side effects health information, classified in class 600, subclass 300.
3. The inventions are distinct, each from the other because of the following reasons:

Inventions I, and II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, Invention I has separate utility such as health care management or delivery, and Invention II has separate utility such as processing the records of diagnosis or treatment of a patient. Invention III has separate utility such as the medical evaluation of a condition of a living body. See MPEP § 806.05(d).

Art Unit: 3626

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
